## ***2006 AXAA(WA) - WASM Joint Meeting***

***22 – 24 September 2006***

***First Announcement***

***Margaret River Convention Centre at  
All Seasons Margaret River***

***Following the great success of the 2004 conference, AXAA(WA) and WASM will hold a joint conference from 22 - 24 September 2006 at the All Seasons, Margaret River, bringing together the two local communities and show-casing local research in x-rays, electron, optical and confocal microscopy. This conference provides a unique opportunity for Western Australian researchers and professionals with an interest in x-ray analysis and microscopy to interact and share knowledge of new and developing techniques at the largest local meeting on these topics in Australia.***

Set in five acres of native and traditional gardens, the All Seasons Margaret River is the perfect springboard to the attractions of the area. World-class wineries are located all around us and invite all comers to taste their product. The world's best surf beaches are located on the cape and the natural beauty of nearby Karri Forests is breathtaking. Margaret River is a comfortable 3 hours drive south of Perth, approximately 300 kilometres, along the West Coastal Highway passing through the coastal towns of Mandurah, Bunbury and Busselton. All Seasons Margaret River is situated on Wallcliffe Road about 1.5 kilometres from the town centre of Margaret River.
